

2022 Climate Adaptation Workshops

Resource Guide

Updated: October 24th, 2022

Presented by:
New York State Department of Health (NYSDOH)
&
New York State Association of County Health Officials (NYSACHO)

**Department
of Health**

Schedule

Plenary Sessions (9:00 – 11:00 AM)

Sept. 29: Part I Sept. 30: Part II

Topic-Specific Workshops (9:00 AM – 12:00 PM)

Agenda

Oct 26: Extreme Heat, Weather Vulnerability

Agenda

Oct 27: Flood Mitigation, Storm Response, Emergency Response Framework

Agenda

Nov 2: Complete Streets, Climate Smart Communities, Environmental Improvements

Agenda

Nov 3 Vector-Borne Diseases, Harmful Algal Blooms, Food Security

Plenary Agenda

Event Webpage

Workshop Flyer

General questions regarding the workshop series can be directed to

Emily D'Angelo edangelo@nysacho.org

Resource questions (or if you should like to contribute to the resource guide) can be directed to

Laura Agnew laura.agnew@health.ny.gov

Collaboration and Partnership Resources

Climate and Health: A Guide for Cross-Sector Collaboration	<p>https://www.cdc.gov/climateandhealth/docs/CrossSectorClimateandHealth.pdf</p> <p>The following guide was developed by the Centers for Disease Control and Prevention (CDC) to support health department staff in conducting cross-sector outreach for climate adaptation planning. Health departments have a key role to play in helping states, cities, and tribes prepare for and prevent the public health impacts of climate change. The ten sectors included in this guide can be important partners for effective climate adaptation planning.</p>
Adaptation Capability Advancement Toolkit (Adapt-CA)	<p>https://arccacalifornia.org/adapt-ca/</p> <p>This is a resource from CalBRACE. It helps local governments assess overcoming common institutional barriers. “The Adaptation Capability Advancement Toolkit (Adapt-CA) is intended to assist California local governments with overcoming common institutional barriers and improving agency capabilities. By using Adapt-CA, local governments will be able to rapidly identify opportunities to improve</p>

	existing capabilities in order to pursue climate change adaptation initiatives more effectively and holistically.”
