

2026 Statewide Immunization Meeting

Exhibitor Directory

The J.A.M.I.E. Group's mission is to help prevent meningitis through education, awareness, and advocacy.

We empower individuals and communities with the information and resources they need to understand meningitis, recognize the risks, and make informed decisions about prevention.

For those impacted by meningitis, we provide a supportive and informative community where survivors and their families can find resources, connection, and support as they navigate life after illness.

NONPROFIT INFO & More

Let's Get Immunized NY

Let's Get Immunized NY strives to provide all New Yorkers reliable and trustworthy information on immunization and encourage New Yorkers to get recommended vaccines. Additionally, we advocate for policies that protect and improve access to immunization, increase awareness of the public health benefits of vaccination, and address health disparities with vaccine access, especially in medically underserved areas and communities with low immunization rates.

Contact

To get involved in this campaign, please contact us using the form below or via email at: info@letsgetimmunizedny.org

New York State HPV Coalition

Working to Prevent HPV Cancers

New York State HPV Coalition

The New York State HPV Coalition is a group of organizations and individuals dedicated to increasing HPV vaccination and the prevention of HPV-related cancers and other diseases caused by HPV.

CSL Seqirus

We're committed to the fight against influenza!

At CSL Seqirus, we are driven by just one goal - to lessen the severity and impact of influenza, which can reach epidemic or even pandemic proportions with life-threatening consequences. Every year our influenza vaccines help protect millions of people. We find solutions to big, complex, challenging problems, and we see the results in the world around us. Then we do it all over again the following year.
